we the people that have opted to subscribe to x.m. radio spend our taxed and double taxed dollars to hear what we need to hear. recently on a trip thru houston the weather and traffic info helped me get thru when i was going home from my work to check on my very pregnated wife. i also depend on weather reports from the local or the weather channel because i am sort of a storm chaser myself. i follow hailstorms with my paintless dent repair business on autos. i serve all the U.S.A. and parts of Europe. sincerely William Tramel, owner. Ace dent co. 337-302-0590.
